FROM THE DESK OF PRESIDENT

It gives me immense pleasure to launch latest edition of "Fastener Mart (A Complete fastener Industries magazine) An association with "FASTENERS MANUFACTURERS ASSOCIATION OF INDIA (REGD.)" on the occasion of "India Fastener Show" which is taking place in Pune from 9-11 April-2026 & Second is "Fastener Fair" scheduled to held from 24-26 July-2026 at Greater Noida & Third is "India Fastener Show" which is taking place at Chennai, directory will also distributed to all major markets of India. I would like to thank Mr. Surinder Bar and entire Annex Media team for compiling and Publishing this useful directory.

"FASTENERS MANUFACTURERS ASSOCIATION OF INDIA" was established in 1971 to help members in their problems related to government legislations, to coordinate with industrial administration in formulation and implementation of varies government policies. Since that time, we have grown by leaps & bounds & now touching 400+ members mark & we remember our seniors who thought of forming an association to take up the problems of Fastener Industry with State as well as Centre Government. With their blessings our association is known as Fastener Family as well as it's unity. This is the time of Innovative, Aggressive and Competitive manufacturing. Exposure is key thing in today's world. That's why we organize visits of our members to various industries as well as International exhibitions. In this process, we are presenting this edition, which will be circulated in upcoming fastener's exhibitions Pune, Delhi & Chennai. I also appreciate all the fasteners industrialists for their kind cooperation and support in making this product. This directory will serve as a guide for fasteners manufacturers Industry to impart information of fasteners products.

Narinder Bhamra
(President)

Fastener Manufacturers Association of India (Regd.)

FROM THE DESK OF GEN. SECRETARY

Welcome to latest edition of "Fastener Mart (A Complete fastener Industries magazine) An association with "FASTENERS MANUFACTURERS ASSOCIATION OF INDIA (REGD.)".

This comprehensive directory having advertisement of members will be reference book for all promotional activities as well complimentary distribution in on the occasion of "India Fastener Show" which is taking place in Pune from 9-11 April-2026 & Second is "Fastener Fair" scheduled to held from 24-26 July-2026 at Greater Noida & Third "India Fastener Show" which is taking place at Chennai. Directory will be also distributed to all major markets of INDIA. This is time of up gradation, in order to grow in this competitive world, we have to upgrade ourselves & showcase that to market. Our members use the directory extensively as a comprehensive buyers' guide for the products and services they use as well as to stay up to date with Fastener Association's information. We have taken the services of Annex Media to prepare & distribute directories at Fastener Fair & Fastener Show India.

I appreciate Annex Media for the sincere efforts put in completion of this publication & wish them success in future endeavors...

Kuldeep Singh
(Gen. Secretary)

Fastener Manufacturers Association of India (Regd.)

Continuous Hardening Furnace

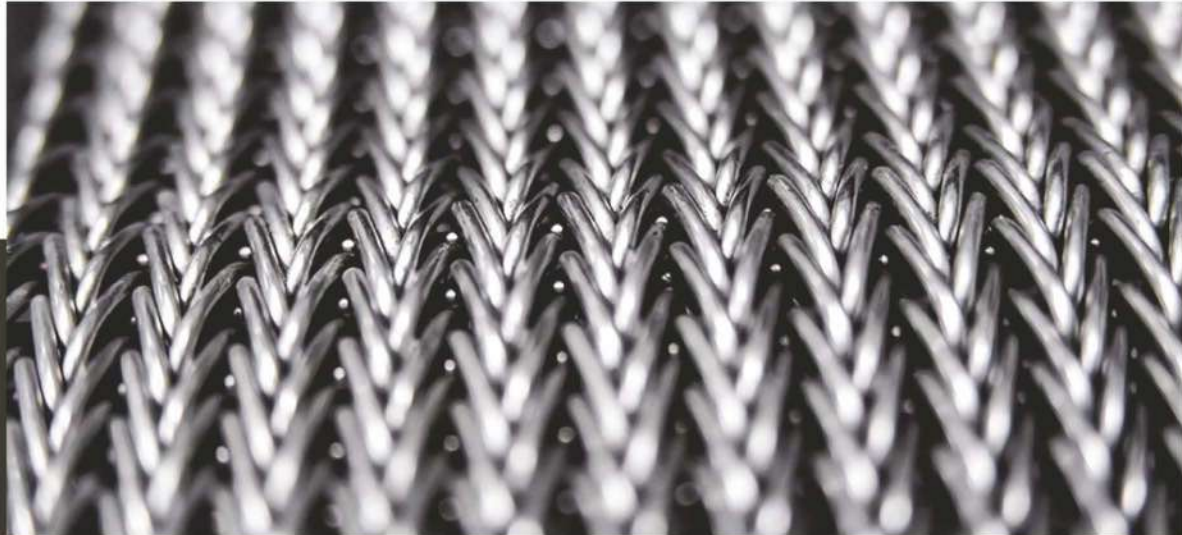

ADITYA ENGINEERS & CO.

WEAVING PERFORMANCE FOR INDUSTRY

Aditya Engineers & Co. is a manufacturer of wire conveyor belts for industrial applications. We specialize in belts designed for heat treatment furnaces operating under extreme conditions.

Explore our comprehensive range of industrial conveyor belts.

Balanced Belt

Balanced belts are a series of left and right-hand spirals connected by a crimped rod to create a balanced weave. These belts are commonly used in many bakeries and Food processing Industries.

Compound Balanced Belt

Compound Balanced belts are produced with right and left-hand spirals fitted closely together for a smooth, dense weave assembled with a straight wire. These belts are used in the Heat Treatment Industries for fasteners as well as in the Baking Industries.

Gratex Belt

These belts are closely assembled with a straight rod to produce a stronger semiclosed mesh. These belts can carry much heavier loads compared to the other belts. These belts are commonly used in Heat Treatment of automobile parts.

Wire Band/ Biscuit Belt

A band belt or biscuit belt is beneficial for the bakery industry. Its design gives the belt high strength and good air circulation through the belt.

MATERIAL : - HIGH CARBON STEEL, G.I, SS 304, SS 304 L, SS 310, SS-310S, SS 314, SS 316 L ETC.

SHARU STEELS PVT. LTD.
